The 2001-2002 Report of Degrees Awarded by the University of Missouri

Executive Summary

This report discusses the annual number of degrees awarded by the University of Missouri System from fiscal year 1981-82 (FY82) through fiscal year 2001-2002 (FY02). The figures and tables of this report display the distribution of awards by campus and level (Table 1), by campus college (Tables 2.1-2.4), and by campus college department (Tables 3.1-3.4). In addition, the long-term trend of degrees awarded is shown graphically by campus (Figure 1) and by degree level within each campus (Figure 2). Degrees awarded are reported by department in the accompanying document *Department Detail Summary*. In all cases, academic degree programs that have moved from one unit to another and units that have moved from one school to another have been reported as if they had always been where they are now. The official annual reporting period is from July 1 to June 30 of the following calendar year. For example, FY02 includes summer and fall graduates from 2001 and the spring graduates of 2002. The data tables of the report show percentage annual change from FY01 to FY02 and FY02 relative to the prior 5-year and 10-year averages. Collectively, these statistics help to communicate whether recent change in production is short or long-term. Please note the axis scale range when considering graphs.
