EXECUTIVE SUMMARY
FACULTY TEACHING LOAD RESPONSIBILITY
FALL 2001

This report summarizes the analysis of the on-campus teaching loads of full-time, regular, ranked faculty for the fall 2001 semester. Measures of teaching load presented in this report include the following: average section credits assigned, number of sections taught, average section credit value, section enrollment, and student credit hours generated. Data on off-schedule and off-campus instructional activities are not included in this report, nor are research buyouts reflected in the data. Beyond reporting teaching loads for fall 2001, the report includes a comparative analysis of changes in teaching loads since fall 1997.

Key findings include:

- The average number of section credits assigned to full-time, regular, ranked faculty was 8.7 (Table 1).
- The average number of sections assigned to full-time, regular, ranked faculty was 3.3 (Table 1).
- The average number of student credit hours produced by full-time, regular, ranked faculty was 140 (Table 1).
- Full-time, regular, ranked faculty were responsible for 52% of all on-campus sections and 47% of all on-campus student credit hours produced (Table 2).
- Since 1997, the average assigned section credits of full-time, regular, ranked faculty has remained stable (Table 3a).
- UM-System totals indicate that the average student credit hours produced by full-time, regular, ranked faculty has dropped 13% over the past five years (Table 3e).
- System-wide, graduate assistants were responsible for 38% of the lower division sections taught in the fall of 2001 (Table 4).
AVERAGE INSTRUCTIONAL RESPONSIBILITY AND PRODUCTIVITY

Table 1 shows the average number of section credits, sections, student credit hours and section enrollments for full-time, ranked, regular faculty during the Fall 2001 semester. Each dimension provides an important measure of faculty responsibility and productivity.

- System-wide, faculty were assigned an average of 8.7 section credits.
- The average number of section credits assigned ranged from 8.2 at UMC to 9.5 at UMR.
- The average number of sections assigned system-wide was 3.3.
- The highest average student credit hour production per faculty was at UMC (147), while the overall system average was 140 student credit hours.
- Average section enrollments ranged from 18.8 at UMC to 14.3 at UMKC. System-wide, the average was 16.7.
Table 1: On-Campus Average Instructional Responsibility and Productivity of Full-time, Regular, Ranked Faculty, Fall 2001

INSTRUCTIONAL CONTRIBUTION

Table 2 depicts the relative contribution of full-time, regular, ranked faculty by presenting the percent of the total section credits, sections, student credit hours, and section enrollments that these faculty members provide.

- Full-time, regular, ranked faculty were responsible for 55% of the assigned section credits.

- At UMR, they were responsible for 67% of the section credits, while at UMSL, they were responsible for 39% of the section credits.

- System-wide, 52% of all sections were assigned to this group. These faculty members were assigned almost two of every three sections offered at UMR and UMKC and four of every ten sections offered at UMSL.

**NOTES:** 1) Due to rounding, some columns may not total. 2) The remaining sections would be taught largely by part-time regular faculty members, full- and part-time non-regular faculty members, and graduate teaching assistants.
COMPARISONS TO PREVIOUS FALL SEMESTERS, FULL-TIME, REGULAR RANKED FACULTY

Tables 3a – 3e show comparisons of this semester’s teaching load of full-time, regular, ranked faculty to the previous four fall semesters. More specifically, the tables display five-year historical trends for:

--Average assigned section credits (Table 3a)
--Number of sections (Table 3b)
--Average credit value assigned to sections (Table 3c)
--Average enrollment per section (Table 3d)
--Average student credit hours produced (Table 3e)

The key findings include:

• System-wide, the average number of section credits assigned has remained fairly stable over the past five years (Table 3a).

• System-wide, the number of sections assigned to this group declined by 2% (Table 3b).

• Average enrollment per section has declined over the past five years. System-wide, enrollment per section has dropped from 17.8 in 1997 to 16.6 students per section in 2001 (Table 3d).

• Over the past five years, the average student credit hours produced by full-time, regular, ranked faculty has decreased on each of the four campuses. System-wide, average student credit hours produced has dropped from 150 in 1997 to 140 in 2001 (Table 3e).

Assistant Professor

IRP/ed 4/2002
Note: Actual change and percent change are rounded.
TEACHING LOADS OF GRADUATE TEACHING ASSISTANTS

Graduate teaching assistants continued to represent a significant component of the educational delivery system at the University of Missouri. This was most notable at UMC and especially at the lower division level (Table 4).

- On average, graduate assistants were responsible for two sections during Fall 2001, reflecting 3.8 section credits.

- For the system, graduate assistants were responsible for 15% of all sections taught during Fall 2001.

- At UMC, graduate assistants were responsible for over 49% of the lower division sections while at UMR they were responsible for 40% of the lower division sections.

- At UMKC and UMSL, 9% and 18% of all lower division sections were assigned to graduate assistants, respectively.

- For the system, graduate assistants taught 27% of the lower division lecture sections.

SPECIAL NOTE

The accuracy and timeliness of the teaching load data contained in this report are dependent upon the accuracy and integrity of the data maintained by the custodians of the student information and personnel/payroll systems. Because the information contained in this report is compiled by the merging of two distinct administrative systems, the data reported do not represent official, independent counts of faculty, student enrollments, credit hours, or sections.

Beginning fall 1995, lecture sections have been identified separately from recitation/seminar/discussion sections. Where appropriate, historical data have been modified to reflect this change. If desired, detailed tables regarding this report are available. Please direct requests for the detailed tables, and any comments or suggestions concerning this study to Robert Mullen at (573) 882-0004 or mullenrw@umsystem.edu.
