Facts and Figures

Vision
The vision of the University of Missouri System is to advance the opportunities for success and well-being for Missouri, our nation and the world through transformative teaching, research, innovation, engagement and inclusion.

History
The University of Missouri System has provided teaching, research and service to Missouri since 1839. The university, the first publicly supported institution of higher education to be established in the Louisiana Purchase territory, was shaped in accordance with the ideals of Thomas Jefferson, an early proponent of higher education.

The university remained a single campus until the School of Mines and Metallurgy was established in Rolla in 1870. In the same year, the university assumed land-grant responsibilities of providing higher education opportunities for all citizens.

In 1963, the university again expanded to better serve Missouri by founding a new campus in St. Louis and acquiring the University of Kansas City, creating the present four-campus system.

Today, the University of Missouri System is one of the nation’s largest higher education institutions, with more than 70,000 students on four campuses and an extension program with activities in every county of the state.
