Additionally, the supplier shall comply with all local, state, and federal laws and regulations related to the performance of the contract to the extent that the same may be applicable.
3. **Taxes:** The supplier shall assume and pay all taxes and contributions including, but not limited to, State, Federal and Municipal which are payable by virtue of the furnishing and delivery of item(s) specified herein. 4. **Sovereign Immunity:** The Curators of the University of Missouri, due to its status as a state entity and its entitlement to sovereign immunity, is unable to accept contract provisions, which require The Curators to indemnify another party (537.600, RSMo). Depending upon the contract, primary (non-diverse) suppliers may be asked to submit Tier 2 information with Women and Diverse Owned Companies. Suppliers have two options in reporting Tier 2 dollars depending on the terms on the contract: Direct and Indirect. Definitions and further explanation of these options is included in the Supplier Diversity Participation Form attached hereto.

The University reserves the sole right to reject any respondents who are excluded by the OIG, who have been debarred by the federal government, or who have otherwise committed any act that could furnish a basis for such exclusion or debarment.

For consulting services and/or contract labor services performed for MU Health Care, the hourly rate and the number of hours worked must be included in the agreement and/or on the invoice submitted. Payment may not occur unless this information has been provided.

The University encourages suppliers to opt into its Single-Use Account (SUA) credit card program for payment of invoices. The SUA is an electronic, credit card-based payment solution that acts like a check. It provides a single 16-digit virtual account number for each payment. Similar to a check, the credit limit on each SUA is set to the specific payment amount. Payment terms for Suppliers who participate in the SUA program are Net 0 as opposed to the standard Net 30 terms.

10. **Accounting Practices:** The Contractor shall maintain, during the term of the contract, all books of account, reports, and records in accordance with generally accepted accounting practices and standard for records directly related to this contract. UNIVERSITY OF MISSOURI
DETAILED SPECIFICATIONS AND SPECIAL CONDITIONS

1. OBJECTIVE

The Curators of the University of Missouri, a public organization, propose to contract on behalf of MU Health Care (hereinafter referred to as "University") with an organization (hereinafter referred to as "Supplier"), to provide **Pharmaceutical Courier Services** as described herein.

The University of Missouri System reserves the right to make multiple awards and/or to reject any and all respondents. Proposals shall be submitted in accordance with the terms and conditions of this RFP and any addenda issued hereto. At the discretion of The University of Missouri System, this contract may be utilized for additional services with other affiliates on an as needed basis.

2. SCOPE

MU Health Care is seeking proposals from a qualified professional firm to provided same-day delivery pharmaceutical courier services within the state of Missouri. These Monday through Saturday services will mainly consist of small, 1-5lb, single package business to residential deliveries, but may also include business to business and business to freight partner deliveries.

At the outset of the program, the majority of packages will be couriered from one location, Mizzou Pharmacy – Ellis Fischel located within University Hospital, to locations located within the main Columbia, MO zip codes: 65201, 65202 and 65203. Package pickup at this location will be required Monday through Friday, twice daily and a single 10:00am pickup on Saturdays for same-day delivery. The Monday through Friday first pickup is required around 9:00am and a second between 2:00pm-3:00pm. Undeliverable/refused packages must be returned to the sending pharmacy by 5:00pm same-day. Within months, a second pharmacy location, Mizzou Pharmacy – Old 63, will begin operations requiring the same package pick-up and return schedule. The expected annual volume between these two locations is 9000 packages, with a minimum of 30 packages per day.

The remaining portion of packages will be couriered from the eight additional retail pharmacy locations scattered throughout Columbia, MO to the three main Columbia zip codes per above. Once daily, morning package pickups at all eight locations is required Monday through Friday and for just three locations on Saturday, for same-day delivery. Undeliverable/refused packages are due back to the sending pharmacy by 5:00pm same-day. The expected annual volume between these eight locations is 6000 packages with no minimum number of packages per day.

On occasion, Mizzou Pharmacy has after hours and Sunday courier needs. The ideal courier partnership would have the capability to handle these emergent delivery needs.

The awarded vendor must follow all special delivery and handling instructions on all packages including but not limited to; appropriately handling and safely transporting refrigerated and/or frozen packages.

With a pharmacy courier system, tracking numbers and receipt confirmation signature logs are required to ensure each and every prescription reaches the right patient in the right place on time. Quality of patient care and satisfaction is enhanced while reducing loss of these expensive critical medication packages. An additional patient care benefit is that prescriptions can be delivered the same day they're ordered, if the order is urgent and placed by a cut-off time specified by the pharmacy. A courier service allows patients the flexibility and ease of placing a prescription order and never leaving the comfort of their home.

Mizzou Pharmacy expects that this program will grow in volume as it has historically. Consequently, the scope of this program will likely expand. Scope expansions could include increased package volumes, additional pickup site locations, additional scheduled pickup times and delivery end point expansion to further outlying zip codes.
