

University of Missouri Bid Event: Addendum 1

Event ID: UOFMO- #22128

Event Dated: May 6, 2022

Event Name: FIRE ALARM INSPECTIONS – Missouri S&T Campus

The questions listed below were received from the bidding community. The corresponding answers were provided by the requesting department. The specifications listed in the table below are modified as follow and except as set forth herein, otherwise remain unchanged and in full force and effect:

Addendum 1, dated May 17, 2022

CLARIFICATION	
QUESTION	ANSWER
The bid is due May 24th; do you know when it will be awarded?	By May 27, 2022
When you say the university can award all items or on an item basis, can you clarify? For example, would the University allow one company to test the smokes and another to test the pulls because the per device pricing would go to the lowest bidder?	Bidder needs to provide a response as a whole. It will be the Bidder's responsibility to hire subs if needed.
On page 10 it states that when awarded supplier will work closely with an appointed University rep. daily. The question we have is if we need to supply two inspectors. One for the testing and one to man the fire alarm inspection during the testing?	No, there will only be one representative provided. This person will provide access into buildings. The representative will not be doing any of the testing.

<p>Can you tell us how much the parking pass will be and is it a daily pass or something we purchase as a onetime expense?</p>	<p>\$2.00 per day \$6.00 for a week or \$20.00 for a month</p> <p>This will apply for each vehicle</p>																
<p>Where should we add in trip charges/ or per diem because our inspector would probably have to stay down there to know this out faster.</p>	<p>Trip charges and inspector fee should be included in your bid response. They should not be separated out</p>																
<p>Do we need to price out for sprinkle testing? If we are not a sprinkler vendor can we leave blank or do we need to sub this work out in order to bid on the fire alarm portion?</p>	<p>Bidder will have to sub out this work.</p>																
<p>On the price sheet I do not see number of devices but I see the devices listed on the residential Building break down (see below)</p> <table border="1" data-bbox="228 1087 966 1255"> <tr> <td>Fire Sprinkler Wet System</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Fire Pump</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Fire Sprinkler Dry System</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Five (5) Year Fire Sprinkler Test</td> <td></td> <td></td> <td></td> </tr> </table>	Fire Sprinkler Wet System				Fire Pump				Fire Sprinkler Dry System				Five (5) Year Fire Sprinkler Test				<p>We are working on providing updated information with regard to this question.</p>
Fire Sprinkler Wet System																	
Fire Pump																	
Fire Sprinkler Dry System																	
Five (5) Year Fire Sprinkler Test																	

Fire Sprinkler wet system	Fire Pump	Fire Sprinkler Dry System	5 Year Internal Sprinkler Test
16 inspection test	1 Aurora pump	0	Last done 2021
11 inspection test	1 pump	0	Last done 2021
13 inspection test	No	0	Needs done 2022
8 inspection test	No	0	Needs done 2022
1 test inspection	No	0	Needs done 2022
1 test inspection	No	0	Needs done 2022
5 total test, 1 in each building	5 Eaton pumps, 1 in each building	Dry heads outside corridors only (last done 2018)	Needs done 2022
5 inspection test	0	3 Dry Systems, RM 416, 409	Needs done 2022
4 inspection test	0	0	Last done 2021
1 inspection Test	No	No	0

My question is would you accept a list showing each buildings alarm price instead of a per device price?

The University provided a "Price Page" for each device to be inspected. Bidders can provide this information if they so choose. Bidders may also provide an inspection price per building.
