Attach and reference any relevant documentation that would ensure the evaluating committee that specifications are met. If “no response” or insufficient response to substantiate compliance is provided, the University reserves the sole right to reject
vendor’s proposal from further consideration. Do not include responses that are superfluous or irrelevant to the specific question asked. These are not valuable in the volume of information the various evaluating teams must review.

Proposals must be submitted in the number and manner as specified below: All submissions are requested via email to Kyla Rogers rogersk@umsystem.edu

**Volume I** – Functional Section is to be submitted in PDF format and must contain:

*Response to Information for Respondents and General Conditions, Mandatory Specifications and vendor responses, and Desirable Specifications and vendor responses. If there is any vendor related contract that must be signed as part of doing business, it should also be included in this section. This section includes all response information, except pricing information and Supplier Diversity Participation Form.

**Volume II** – Financial Section must be submitted electronically through email and contain:

*Proposal Form with any supplemental pricing schedules, if applicable, and Financial Summary including additional costs, if any, for Desirable Specification Compliance, functional or technical. This section should also include the Supplier Diversity Participation Form. Financial statements that may be required are also to be included in this section.

Respondent must complete and return the University Proposal Form with proposal response. Vendor quote sheets are not acceptable forms of bidding and could cause rejection of response. All proposals must be submitted electronically via email with the subject line: Request for Proposal #31111 for Early Out Patient Collections Service.

Responses to this document must address issues in the order provided. Please limit your proposal responses to no more than sixty (60) pages in response to the criteria.

Note: Any Respondent’s Request for Proposal that makes material modifications to the University’s Terms and Conditions may be found non-responsive, as solely determined by the University.

**Confidentiality of Information:**
All records received from a Supplier will be deemed public records and presumed to be open. If the supplier submits with the Request for Proposal any information claimed to be exempt under the Revised Statues of Missouri, Chapter 610, this information must be placed in a separate envelope and marked with:

"This data shall not be disclosed outside the University or be duplicated, used, or disclosed in whole or in part for any purpose other than to evaluate the Request for Proposal; however, if a contract is awarded to this Supplier as a result of or in connection with the
submission of such information, the University shall have the right to duplicate, use, or disclose this information to the extent provided in the contract. This restriction does not limit the University's right to use information contained herein if it is obtained from another source."

6. EVALUATION AND CRITERIA FOR AWARD OF PROPOSAL

Respondents must meet the mandatory/limiting criteria to be “qualified” for scoring. If requirements are not met, the respondents are disqualified from further evaluation/award. Qualified remaining respondents will be scored on their ability to meet scored desirable criteria, which includes qualitatively, how specifications are met. A team of University individuals will evaluate and assign points to vendors’ responses to the evaluation questions. At the sole option of the University, the functional/technical review team may decide to go on a site visit, at their expense, or request vendors to perform a presentation/demonstration to confirm specifications are met as provided in responses. The University could elect to not award to a potential respondent if site visits/presentations revealed compliance inconsistency.

The University may request vendors selected as finalists to come onsite to the University, at the vendor’s expense, for presentations as part of the RFP selection.

Proposals will be awarded based upon the functional and financial evaluation.

7. INSURANCE REQUIREMENTS

Liability:
The Consultant agrees to define, indemnify, and hold harmless the University, its officers, agents and employees from and against all losses and expenses (including costs and attorney’s fees) resulting from any injury (including death) to any person, or damages to property of others arising out of the acts or omissions of the Consultant, its employees, or agents in performance of the work under this Agreement.

Insurance:
The Consultant shall provide and maintain, during the life of the Agreement, insurance acceptable to the University which will afford protection and coverage in accordance with the requirements set forth below:

Commercial General Liability Coverage comparable to Comprehensive General Liability coverage to protect the Consultant and any Sub-consultant performing work covered by this Agreement from claims for damages for personal injury, bodily injury (including wrongful death), and from claims for property damage which may arise from the operation under the Agreement. The coverage will provide protection for all operations by the Consultant or any Sub-consultant or by anyone directly or indirectly employed by either of them. In addition, the coverage is to include "The Curators of the University of Missouri" as "Additional Insured." The amount of the insurance shall not be less than a minimum of
$1,000,000 combined single limit, per occurrence and aggregate, for both bodily injury and property damage combined.

In lieu of the “Additional Insured” endorsement, an Owners-Contractors-Protective policy may be provided evidencing “The Curators of the University of Missouri” as the Named Insured.

Professional Liability Insurance will be provided by the Consultant to cover any claims, including but not limited to errors and omissions, which may arise from the work performed by the Consultant, Sub-consultant, or anyone directly or indirectly employed by them. The coverage provided will not be less than $1,000,000 per occurrence and aggregate.

All insurance shall be procured through agencies and be written by insurance companies which are acceptable to and approved by the University, e.g., all coverage should be placed with Insurance Carriers that are licensed to do business in the State of Missouri as an admitted Carrier and all coverage placed are subject to the University's approval as to form and content, as well as Carrier. All required coverage shall be obtained and paid for by the Consultant.

The Consultant shall furnish the University with certificates, policies or binders which indicate the Consultant and/or the University and other Consultants (where required) are covered by the required insurance showing type, amount, class of operations covered, effective dates and dates of expiration of policies prior to the University issuing a Notice to Proceed.

8. PAYMENT TERMS AND CONDITIONS

Payment in full will be made within thirty (30) days after receiving invoices for good/services rendered as meeting all performance specifications. The University reserves the right to withhold a portion of the payment until the services have been completed. Any different payment terms desired by the respondent must be clearly stated and may or may not be accepted by the University.

Preferred settlement method is through the use of Electronic Accounts Payable solutions. Payment terms associated with these forms of payment will be issued as net 30 after the date of invoice. Payment terms associated with settlement by check will be considered to be net 30 days. Cash discounts for prompt payment may be offered but they will not be considered in determination of award unless specifically stated in the Detailed Specifications and Special Conditions. The University may withhold payment or make such deductions as may be necessary to protect the University from loss or damage on account of defective work, claims, damages, or to pay for repair or correction of equipment or supplies furnished hereunder. Payment may not be made until satisfactory delivery and acceptance by the University and receipt of correct invoice have occurred.
The University encourages suppliers to opt into its Single-Use Account (SUA) credit card program for payment of invoices. The SUA is an electronic, credit card-based payment solutions that acts like a check. It provides a single 16-digit virtual account number for each payment. Similar to a check, the credit limit on each SUA is set to the specific payment amount. Payment terms for Suppliers who participate in the SUA program are Net 10 as opposed to the standard Net 30 terms.

  o University % of Total Revenues: 40% (#2 divided by #1)
