Comment [CSD(1)]: Should include:

(3) Legislation updates
(4) Advocacy Day updates

Comment [CSD(2)]: Discuss plans for the late April meeting. Also discuss idea for having a platform brainstorming session in May, which will be followed by the ability of any board member (system included) to bring forward platform issues. All platform issues will be considered equally, and there won't be any limits on the number of platforms ASUM can take on. System may make recommendations pertaining to the number of platforms adopted from a capacity standpoint, but it will no longer be a rigid 4.

Chose the May meeting because it will be an opportunity when new and old will be present. They will then have the summer to prepare to present to the board in late August / early September.

At the May meeting, I would also like to move ahead and schedule the Board retreat.
