## Overview

### IPEDS Student Financial Aid Component Overview - Public Academic Reporters

Welcome to the Student Financial Aid (SFA) component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

#### Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

#### Undergraduate Student Groups

You will be asked to report information for different groups of students.

- Group 1: All undergraduate students
- Group 2: Of Group 1, full-time, first-time degree/certificate-seeking students (FTFT)
- Group 3: Of Group 2, FTFT students who paid the lower of in-state/in-district tuition rate and were awarded any grant/scholarship aid from the federal government, state/local government, or the institution\*
- Group 4: Of Group 2, FTFT students who paid the lower of in-state/in-district tuition rate and were awarded any Title IV federal student aid

\*For public institutions, include only those students paying the in-state or in-district tuition rate. For program reporters, include only those students enrolled in the institution's largest program.

- COA Revisions**  
Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component. Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.
- College Affordability and Transparency Lists**  
Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.
- Interactive Edits and Error Messages**  
SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.
- Context Boxes**  
You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the general public.

#### Changes to reporting:

The following changes were implemented for the 2022-23 data collection period:

- Degree/certificate-seeking and non-degree/certificate-seeking data items were added in Parts A and B to disaggregate financial aid award amounts reported in Part B by these student categories.
- New FAQs were added to clarify concepts.
- Minor wording changes were made for clarification.

#### Resources:

- To download the survey materials for this component: [Survey Materials](#)
- To access your prior year data submission for this component: [Reported Data](#)

## Section 1: Comparison Chart

## Comparison Chart

## Reporting Reminders:

- Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 is correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

## Note:

- Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

## Summary

## IPEDS Student Financial Aid (SFA) Survey Summary

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2023.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or [ipedshelp@rti.org](mailto:ipedshelp@rti.org).

## Edit Report

## Student Financial Aid

Source	Description	Severity	Resolved	Options
Screen: Part A - Establish your groups				
Screen Entry	The number entered is outside the expected range of between 319 and 477 when compared with the prior year value. Please correct your data or explain. (Error #7121)	Explanation	Yes	
Reason	This is correct since it matches last year’s reported first-time degree-seeking full-time undergraduates in the IPEDS Fall Enrollment.			
Screen Entry	The number entered is outside the expected range of between 310 and 464 when compared with the prior year value. Please correct your data or explain. (Error #7132)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen Entry	The number entered is outside the expected range of between 225 and 417 when compared with the prior year value. Please correct your data or explain. (Error #7175)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 9,502 and 10,866 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2. We compared the awards across the two years for the new freshmen and saw decreases across most categories, the most dramatic being in the dollars of admission merit scholarships, but there was no policy change from one year to the next that would account for the difference.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 181 and 1,545 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	Received and disbursed a higher amount of HEERF funds than previous year.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 12,756 and 14,120 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	Received and disbursed a higher amount of HEERF funds than previous year.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 10,677 and 12,041 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	Population of students for both years (13 in 2022, 15 in 2021) is so small that choices made by a few students can seem significant. In addition, the greater availability of HEERF funding may have made it easier to borrow less—in 2022, 9 of the 13 students had a HEERF grant, whereas in 2021 only 3 did.			
Screen: Part D - Enter Information about Group 3				
Screen Entry	The number entered is outside the expected range of between 66 and 122 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The number entered is outside the expected range of between 54 and 98 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen Entry	The number entered is outside the expected range of between 28 and 50 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	

Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen Entry	The number entered is outside the expected range of between 25 and 45 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason	Students in the higher income bracket on average received more in non-need, merit based aid.			
Screen Entry	The total number of Group 4 students who were awarded any Title IV aid across all income levels is outside the expected range of between 161 and 267 based on the prior year value. Please correct your data or explain. (Error #7333)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen Entry	The total amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 2,168,382 and 3,613,970 based on the prior year value. Please correct your data or explain. (Error #7332)	Explanation	Yes	
Reason	This is a direct correlation to the 32% decrease in first-time full-time degree seeking in Group 2.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)  This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	The third tier students received higher proportion of certain types of aid relative to their size—they received a greater proportion of merit aid relative to their number, and these awards are typically flat amounts and not prorated based on income or EFC.
