Chapter 320: Employment and Termination

320.150 Discontinuance of Programs or Departments of Instruction

Bd. Min. 2-12-82; Bd. Min. 7-27-84; Bd. Min. 10-13-89; Revised 1-29-92; 7-30-92; 09-26-19.

- A. **Authority** -- The discontinuance of a program or a department which would result in the termination of continuous appointments or term appointments before their expiration may be done in either of the following manners:
 1. The Board of Curators in the exercise of the power vested in it by Article IX, Section 9(a) of the Constitution of the State of Missouri may

discontinue a program or department which would result in the termination of continuous appointments or term appointments before their expiration without following the procedures set out in this Section 320.150.B to 320.150.B.4, inclusive, but the Board of Curators in making its decision shall consider the criteria set out in Section 320.150.B.2. Before a final decision is made to terminate a program or a department under Section 320.150.A.1, the Board of Curators shall consult with the President and the Chancellor of the affected campus, who will consult with appropriate faculty representatives and the affected academic unit. Within a reasonable time to be set by the Board, the affected academic unit shall be given the opportunity to submit to the Board of Curators, through the Chancellor and the President, its response to a proposed program or department termination and any alternate suggestions and recommendations.

2. The procedures in the Section 320.150.B to Section 320.150.B.5 may be used to discontinue a program or department which would result in the termination of continuous appointments or term appointments before their expiration.

If either alternative is used to discontinue a program or department which would result in the termination of continuous appointments or term appointments before their expiration, the provisions of the Section 320.150.B.5 to Section 320.150.D.2.e(2), inclusive are applicable.

- B. Procedures** -- The procedures set out in Section 320.150.B to Section 320.B.5 apply when the discontinuance of a program or a department could result in the termination of continuous appointments or term appointments before their expiration and the process is initiated pursuant to Section 320.150.A.2. The procedures do not apply when the process is initiated pursuant to Section 320.150.A.1. The procedures also do not apply to transfer of programs from one campus to another or to elimination of program which do not involve the termination of continuous appointments or term appointments before their expiration.

1. **Program Defined** -- The term "program" is used in many ways. Here, however, the specific intention is to identify the designation "program" with the typical academic department; the program consists of the productive effort of that administrative and budgetary unit most often designated as a "department," which usually corresponds to widely recognized disciplinary designations. There are limited exceptions to this definition of programs, such as when a school or college is not organized into departments, or when specializations within the department or school are so unique in content that faculty members normally cannot cross from one area to another.
2. **Considerations** -- The discontinuance of a program or department which could result in the termination of continuous appointments or term appointments before their expiration shall be based on the following criteria:
 - a. Contribution of the program to campus and University missions;
 - b. Need for the program;
 - c. Financial considerations;
 - d. Quality of the program;
 - e. Welfare of the student, including the opportunity which student currently enrolled in the course will have to complete it;
 - f. Extent to which the program is available at other institutions in the State and region; and
 - g. Extent to which the University has unique advantages in offering the program.
3. **Role of Chancellor** -- After consulting with the President, if the Chancellor reaches a tentative decision that a program should be discontinued, the Chancellor shall present the decision, together with reasons, to an appropriate standing committee, the majority of whose members are faculty, or shall appoint a committee, the majority of whose members shall be faculty. The Chancellor shall simultaneously present the decision, together with reasons, to the affected administrative unit or units.

The Committee shall present to the Chancellor any response or alternative recommendation within a reasonable time. The affected unit may also submit to the committee and the Chancellor their views and recommendations.

4. **Role of Chancellor, President and Board of Curators** -- Having considered these responses, if the Chancellor still concludes that the program should be discontinued, and if this action requires the termination of continuous appointments or term appointments before their expiration, the Chancellor shall forward a recommendation to the President. If the President concurs with the recommendation of the Chancellor to discontinue the program, the President shall make that recommendation to the Board of Curators. The Board of Curators shall then make the final decision as to whether to discontinue the program.
5. **Notice Shall be Given By Chancellor** -- After the Board of Curators' decision to discontinue a program, the Chancellor shall provide timely notice to those individuals whose appointments are to be terminated. In the case of tenured faculty or non-tenured faculty in the third or subsequent year of service, notice of termination must be given at least thirteen months prior to the date of termination. When the appointment of a non-tenured faculty member in the first or second year of service is terminated under these procedures, the notice shall be given at least six months prior to the date of termination. Since commitments to students enrolled in a program at the time of a decision by the Board of Curators to terminate a program must be met, termination notices to faculty may be issued at various times following the decision of the Board.
 - a. Notice shall be given in person or by certified mail addressed to the last address currently on record with the employing administrative unit.
 - b. Failure of any appointee to have a current correct address on record with the employing administrative unit shall not be construed to invalidate such notice.

6. **Appeal** -- An individual receiving such notice shall be given fifteen (15) days to request a hearing before the Campus Faculty Tenure Committee as designated in the University Academic Tenure Regulations.
 - a. The appeal may be based only on the grounds that procedures specified in this document have not been followed, or that the decision to recommend termination was based significantly on considerations violative either of academic freedom or of governing policies on equal employment opportunity.
 - b. The tenure committee shall follow the procedures governing conduct of the hearing under the Academic Grievance Procedures and shall report to the Chancellor, as provided in Step 3 of the Academic Grievance Procedures.
 - c. Following any such appeal, the recommendation of the Chancellor, together with any responses from the faculty committee or the affected units, and the findings and recommendations of the Campus Faculty Tenure Committee on any appeals shall be transmitted to the President.
 - d. The President shall formulate a recommendation and present it, together with the campus materials, to the General Officers for review and advice.
 - e. Following that review, the President shall make a recommendation to the Board of Curators.
7. **Placement Within the University System** -- Before the date of termination of an appointment because of the discontinuance of a program or department of instruction, the University, with faculty participation, will attempt to place the faculty member concerned in another suitable position in the University system.
 - a. If the appointment of a faculty member is terminated, and if there develops within three years a faculty position on any campus for which the faculty member is qualified, it shall be the responsibility of the President's Office to communicate with the hiring campus about the availability of the faculty member.

- b. The hiring unit shall carefully review the qualifications of the faculty member in question and determine whether such individual meets the announced criteria established for the position.
 - c. If so, the faculty member in question shall be considered for the position.
8. In all cases of termination of appointment because of discontinuance of a program or department of instruction, the University may not reinstitute that program or a substantially similar program on that campus within a period of three years, unless the faculty members whose appointments were terminated have been offered reinstatement with the same rank and tenure status and a reasonable time in which to accept or decline.

C. Transition Benefits for Tenured Faculty with a Minimum of Five Years Creditable Service

The lump-sum to be calculated on the basis of the actuarial equivalent of the benefits accrued in the University Retirement, Disability and Death Benefit Plan at termination of employment which would have been paid in the form of a monthly annuity beginning at age 65. The lump-sum to be distributed upon termination as follows:
- (1) Taxable cash income, or

D. Transition Benefits for Other University Employees

This plan has been created to provide a means for establishing salary compensation for employment services rendered by plan participants to their employer, the University, an educational organization. All payments to plan participants made pursuant to the provisions of this plan are salary payments by the employer to the participants as employees and subject to the rules and regulations of the University governing the approval and payment of salaries. Provisions in this plan for accounting for plan income and expenses and for recommendations from plan participants are not intended to and shall not be construed to confer on plan participants any right, title or interest in plan income, any right to control the disposition of plan income and expenses, or any right to determine salaries. In addition, the plan is created to implement the following purposes:

1. To provide a system by which the faculty is enabled to achieve fulfillment of their commitment to high quality patient care.
2. To recognize that high quality patient care is related to faculty participation in teaching and research and also that high quality clinical teaching is dependent upon the faculty being engaged in active medical practice, thereby assuring an adequate supply of clinical material for educational purposes.
3. To establish incentive mechanisms for faculty compensation which enhance the attainment of the Health Sciences Center goals of patient care, teaching and research.
4. To assure a University Physicians Medical Practice Plan which will be competitive with income plans of other academic medical centers in the United States.
5. To assist with the retention of qualified faculty by contributing to their total compensation.

- E. **Distribution of Plan Income**

 - Billing and Collections Costs
 - Professional Liability Insurance
 - Support personnel, services and facilities
 - Administrative costs

- Retirement

- Other items that are deemed necessary in the operation of the Plan Annually and as requested by the University Physicians Management Committee, the Executive Director of the University Physicians will report to the University Physicians Management Committee the expenditures to date for the costs of operation of the Plan. A final accounting report will be issued after the close of the accounting period.

An annual budget will be submitted for the costs of operation of the Plan. Based on the budget that is submitted the University Physicians Committee shall recommend a deduction rate to be proposed for the period covered by the budget. The proposed deduction rate and budget for the next fiscal year must be approved by the Dean.

Further, for certain types of Plan income, such as contract income and certain other types of “lump sum” income, requiring a minimum of administrative and business office expense, it may be appropriate to establish a special deduction rate(s) to cover operating costs.

In exceptional circumstances, it may be necessary to alter the deduction rate during the fiscal year. Such an alteration will be recommended by the University Physicians Management Committee and approved by the Dean. Separate accounts will be established for each category of expenditures authorized in this Section 440.040 E.1. Expenditures from these accounts will be in accordance with standard University standards.

From time to time good accounting practice and effective fiscal management may well indicate a need to revise, expand, contract or otherwise modify the accounting system relative to the Plan. Nothing in this Plan shall be interpreted as preventing such accounting revision, expansion, modification or contraction so long as they adhere to generally accepted accounting principles and University policy.

2. **Dean's Office Account** —A Dean's office account shall be maintained. The account shall be credited with 6 percent of the Plan income. Any expenditures or transfers from this account must conform to standard University budgeting policy.

The Dean's Office account is established to support research and development costs, capital improvements, new members of the faculty, renovation, the Health Sciences Library and for such other purposes that are of general benefit to the School of Medicine.

3. **Departmental Accounts**—A departmental and or Sectional/Divisional account shall be maintained for each department and/or section/division. The departmental accounts shall be credited with 10 percent of the departmental Plan income.

Annually on the date established by the Dean, the department is to submit a comprehensive budget to include the distribution of the department's share of Plan income. This annual budget must be approved by the Chair of the Department and the Dean.

Expenditure from these accounts shall be in accordance with standard University policy.

Voluntary contributions to the Dean's Office account may be made annually from each departmental and/or sectional/divisional account. The University Physicians Administration Office shall supply the Dean and the University Physicians Management Committee with a periodic statement of account for each departmental and/or sectional/divisional account. A periodic statement of account shall be furnished to each Department Chair or Section/Division Head for their own departmental or sectional/divisional account.

Net Plan Income will be those funds available to meet base salary contract commitments as outlined in Section 440.040 F.2, and incentive income as outlined in Section 440.040 G.
2. **Salary Contract—Base Salary** —A participant's base salary may be budgeted from plan income and/or from funds derived outside the Plan Recommendation of the individual faculty member's base salary contract from all sources including Plan income shall be made by the appropriate Departmental Chair and approved by the Dean to the appointing authority with this determination becoming a part of the recommended School of Medicine budget. That portion of the faculty member's base salary which is budgeted from Plan income shall preferably reflect the extent of their efforts in patient care. The salary contract will be negotiated in the same manner as other School of Medicine faculty contracts.
The portion of base salary budgeted from plan income is payable only to the extent of departmental net plan income. If Departmental net plan income is not sufficient to meet budgeted base salary, then the individual Department Trust funds or the School of Medicine funds will meet the remainder of the obligation.
Under normal circumstances the portion of the individual's base salary budgeted from Plan income will be derived through only one Section/Division or Department. Under the special circumstances of interdisciplinary programs individuals with joint appointments may derive salary measured by Plan income from more than one Section/Division or Department with the approval of the participant, the Section/Division Chief or Chiefs, the Department Chair, University Physicians Management Committee and the Dean.
The faculty contract year for the purposes of the Plan will be the faculty contract year of MU. Faculty members who commence employment subsequent to the beginning of the faculty contract year may be a participant for the remainder of the year.

3. **Payment of Base Salary** —A departmental or divisional/sectional base salary pool shall be established for each department or division/section in which net plan income will be pooled and from which base salaries as outlined above (Section 440.040 F.2) will be paid.

G. Distribution of Incentive Income

1. For purposes of this section, the following definition applies: The words “Incentive Income” will refer to net plan income less the costs of base salary contract commitments as outlined in Section 440.040 F.
2. **Individual Participant**
 - a. In addition to base salary (440.040 F. above) a participant may receive available incentive income as incentive salary. A participant can receive incentive salary only if the participant generated net revenue sufficient to meet their portion of base salary as described in Section 440.040 F.2. Individual participants may allow reductions of incentive salary for support of their Department or Section/Division. This amount will be determined by negotiations between the individual and their Department Chair with approval of the Dean. Such arrangements and the allocation of such incentive salary shall be determined prior to the commencement of the salary contract year and agreed to in writing by the participant and approved by the Chief of the Section/Division, the Department Chair and the Dean.
3. **Group Participants**
 - a. In some circumstances it may be appropriate for participants within a department and/or section/division to practice as a group and pool their incentive income. Such arrangements and the allocation of such incentive salary among the participants in the department or section/division shall be determined prior to the commencement of the salary contract year and agreed to in writing by each participant and approved by the chief of the section/division, the Department Chair and the Dean.
 - b. Annually on the date established by the Dean the appropriate Departments will submit proposals to practice as departmental or sectional/divisional groups to pool their Plan income under Section 440.040 G.3.a.
4. **Participant's Account**—An account shall be established for each Participant which shall be credited with the participant's portion of the Plan income as determined by the University Physicians Medical Practice Plan base salary contract and the incentive income distribution schedule. All expenditures or transfers from this account will conform with the participant's plan contract provisions relating to the participant's share of any incentive income.

In the first year of the Plan, the six members at large and their alternates will be elected for staggered terms; two members and two alternates for three years, two members and two alternates for two years, and two members and two alternates for one year. Thereafter an annual election will be held for the purpose of electing two members at large and their alternates to serve three year terms.

The Secretary shall function as the Vice Chair. In the first year of the Plan the Chair will be elected for a two year term and the Secretary for a one year term. Thereafter, annually the Committee will elect either a Chair or the Secretary to serve a two year term.

In the first year of the Plan the four members will be elected for staggered terms; two members for one year and two members for two years. In addition there shall be paid to the participant or the deceased participant's estate an amount equal to the participant's incentive salary based on uncollected fees at the time of their death or disability, reduced by the amount of such fees that are not in disability. Reasonable efforts shall be taken to collect all such accounts within the six month period. This additional payment shall be made to the participant or the estate of the deceased participant as soon after the end of the six month period as is practicable. Income from any fees uncollected at the end of the six month period which are subsequently collected shall be allocated to the departmental base salary pool (Section 440.040 F.3), School of Medicine Account (Section 440.040 E.2), and Departmental Account (Section 440.040 E.3).

Chapter 520: Benefit Programs

520.010 Benefit Programs

Bd. Min. 4-10-15; Amended Bd. Min. 09-26-19.

1. **Introduction** – The University's benefits include the medical, dental, long term disability plans and various other insurance benefits available to faculty and staff, retirees, former employees, and their dependents (hereafter “Participants”) as described in the respective benefits plan documents. The following sections of the Collected Rules and Regulations are being replaced by this new policy statement: Sections 500.010, 510.010, 540.010 and 550.010. The voluntary and defined contribution retirement plans previously contained in Sections 530.030, 570.010, 580.010 and 590.010 of the Collected Rules and Regulations are being replaced by this new policy statement. However, the University’s Retirement, Disability and Death Benefit Plan contained in Section 530.010 of the Collected Rules and Regulations is not being replaced or otherwise affected by this policy statement. The cost for the covered benefit plans, various other insurance benefits and the covered voluntary and defined contribution retirement plans are funded with contributions by the University and contributions and/or premiums paid by Participants. The University determines the contribution and premium amounts on an annual basis considering the costs required to provide and administer the benefits. The University also provides other benefits programs on a voluntary participation basis including educational assistance, wellness, employee

assistance program, and leave benefits to support the work-life balance and other needs of eligible Participants. Together, all of these benefits are considered the Total Rewards offered by the University. This benefits policy provides direction for the provision, selection and administration of the covered benefits programs.

2. **Objectives** – It is the University’s intention to provide competitive benefits programs that are valued by current and prospective faculty and staff. The definitions pertaining to benefit eligibility are contained in Section 320.050 of the Collected Rules and Regulations or in the respective benefit plan documents.
 3. **Faculty, Staff and Retiree Involvement** – An advisory committee, appointed by the Associate Vice President and Chief Human Resources Officer (CHRO), shall serve in an advisory capacity in matters related to benefits programs and in the treatment of pay and benefits as interrelated parts of the University’s overall Total Rewards. The advisory committee shall be comprised of at least 12 members. Committee membership shall consist of a faculty and a staff member from each campus, a hospital representative and a retiree representative appointed by the CHRO from nominations by the campuses, retiree associations and self-nominations. The CHRO may appoint additional at large members and the Committee Chair at his/her discretion. In making the committee appointments the CHRO will strive to appoint members to represent the various University constituencies. The Committee may study, consider and make recommendations to the CHRO regarding proposed revisions to, modifications of, additions to, or deletions from benefits programs covered by this policy statement. This advisory role does not include the selection or management of vendors, plan investments or other administrative responsibilities; however, members may provide input on program design as related to the needs of Participants, provide feedback on communication and education, and advise in other areas.
 4. **University Financial Support of Benefits Programs** – The University will contribute to the cost of the covered benefit programs (medical, dental, disability, and life) as well as covered voluntary and defined contribution retirement plans and leave programs. The University may develop, administer and support other benefits programs that are not contributed to by the University but that provide competitive, affordable and accessible programs valued by faculty and staff.
 5. **Evaluation** – The benefits programs will be audited and/or evaluated as appropriate to ensure efficient and effective administration, service, and pricing.

that Collected Rules and Regulations, Section 340.070, Faculty Leave, be revised as attached (and as on file with the minutes of this meeting).

Collected Rules and Regulations
Personnel
Chapter 340: Employee Absences
340.070 Faculty Leave

Bd. Min. 1-31-08; Amended 2-06-09; Amended 12-10-10; Amended 7-27-12; Amended 2-9-17; Amended Bd. Min 4-12-18; Amended Bd. Min 09-26-18.

- A. **Professional Leave** – Within the specifications described below, each campus will develop an application and review process to approve leaves and stipulate the duration (not to exceed one year) and support associated for each leave aligned with institutional priorities and commensurate with available resources. All faculty members who accept a paid leave must state their intention to return to the University for the same amount of time they plan to be gone. Return of the faculty member for such period of time does not guarantee that the period of such leave shall be taken into account as service credit for purposes of any University retirement plan. Exemptions to returning to the University at the conclusion of the leave can only be granted by the president upon recommendation of the chancellor. Additionally, all faculty members must file a report on the accomplishments during the leave period as specified by their chancellor or chancellor's designee.
1. **Research Leave.** Tenured, tenure-track, and full-time, ranked non-tenure track research faculty members with established scholarly, artistic or research records are eligible to apply for a research leave. A research leave

may be taken for a period of time up to a full year. If a faculty member receives an external fellowship or grant support for a research leave, the University may supplement such support to provide full regular salary; if such external support is not received, the University may provide full regular salary. Additional travel funds and leave related expenses may be provided as deemed appropriate.

2. **Development Leave.** Tenured, tenure-track and full-time, ranked non-tenure track faculty members are eligible to apply for a development leave to pursue personal, professional, instructional, or administrative development. Development leave may be taken for a period of time up to a full year. If a faculty member receives external fellowship or grant support for a development leave, the University may supplement such support to provide full regular salary; if such external support is not received, the University may provide full regular salary. Additional travel funds and leave related expenses may be provided as deemed appropriate.
3. **Sabbatical Leave.** Tenured faculty members are eligible to apply for a sabbatical leave after six or more years of service, and can reapply for subsequent sabbatical leaves six years after the prior sabbatical leave. Sabbatical leaves may be taken for a period of time up to a full year. A faculty member on a sabbatical leave will receive up to one-half their regular annual salary. Additional travel funds and leave related expenses may be provided as deemed appropriate.

B. **Personal Leave** – Within the specifications described below, each campus will develop an application and review process to approve personal leaves and stipulate the duration (not to exceed one year) and support associated for each leave. All leaves must be documented in writing, recorded, and approved by signature of the provost or designee.

1. **Leave of Absence.** Faculty members may apply for a personal leave without pay. A leave of absence may be granted in cases of exceptional personal or institutional reasons, such as medical leave beyond the requirements of the Family and Medical Leave Act (FMLA). A leave of absence without pay may be granted for a period not to exceed one year and may not extend past the ending date of the faculty member's appointment. Any extension of the one year limit must be approved by the chancellor.
2. **Paid Family and Medical Leave**
 1. A tenured, or tenure-track faculty member, or full-time, ranked non-tenure track faculty member as defined in Section 310.035, who is eligible for family and medical leave (see Section 340.010) will be paid, up to 12 weeks, during any portion of such leave that occurs during the faculty member's normally scheduled work duties. Paid family and medical leaves cannot exceed more than two 12-week paid leaves within a six-year period. Additional leaves during any six-year period will be unpaid. However, if such faculty member is

covered by another approved University vacation/sick leave policy, the provisions of such vacation/sick leave policy shall apply in determining the extent to which the family and medical leave shall be paid.

2. Under no circumstance can a faculty member exceed 12 weeks of family and medical leave within any 12-month period unless such leave is for covered service member leave for which the maximum is described in Section 340.010. However, given that the traditional semester is 16-weeks in duration, it is important not to interrupt the teaching and learning environment of students. Therefore, any faculty member who would normally have teaching responsibilities and is returning from a family and medical leave mid-semester will not be expected to return to the classroom until the start of a new term. In order to receive pay upon the return from a 12-week family and medical leave or a 26-week covered service member leave, a differentiated work load must be negotiated. This differentiated work load must be documented in writing and approved by the department chair, dean^[1] and the provost or designee. If negotiated, the faculty member may be eligible to receive pay for the remainder of the semester. Faculty members who take family and medical leave, either paid or unpaid, shall not, because of such leave, be assigned heavier work load or be otherwise discriminated against.

- C. **Military Leave** – See Section 340.010 and the HR Policy Manual for further information regarding military leave.

[1] On campuses with no schools or colleges and, therefore, no deans, there is no requirement for approval by the dean.

The motion carried unanimously (8-0) by voice vote with no abstentions.
