University of Missouri System FY2018 Budget

Introduction and Overview

The University of Missouri System Operating Budget Book presents summary information on total sources and uses of the University's funds by major fund groups. Additional information is provided on the current funds which include resources of the University that are expendable for any purpose directly related to the primary missions of the University, i.e., instruction, research, public service, and economic developments, as well as related support services. Current funds can be divided into restricted and unrestricted funds. Restricted funds are those that are restricted in use by the donor or supporting agency.

Budget planning and development was guided by the campus strategic plans and the policy decisions and planning parameters of the President and the Board of Curators. Net tuition and fee revenues included in these budgets are based on tuition and required fee rates approved by the Board. The change in net fee revenues included in the budget is driven by enrollment changes related to student mix, enrollment growth/decline, and financial aid combined with approved rate increases in tuition, supplemental course fees, and other required fees.

FY2018 Budget Planning Process

On April 3, 2017, President Choi called the University community to a renewed commitment to excellence and challenged all units to take bold actions to become a stronger academic institution in both the short and long term, while acknowledging the University faced significant budget constraints. President Choi announced a long-term plan to address the impact of reductions in FY2018 and beyond as well as to find recurring resources for strategic investment to grow and support programs of excellence.

President Choi asked campus and system leadership to develop and execute both short- and long-term plans for budget reductions based on a set of guiding principles. The guiding principles serve as the University's compass as we seek to protect activities and programs that best meet the mission of our University and provide maximum benefit to our communities, our state and the nation.

Guiding principles:

- Challenge the status quo and long-held traditions that are impediments to change
- Make strategic decisions based on performance measures of excellence
- Protect programs of excellence for faculty research and creative works, student outcomes, community engagement and financial aid
- Be transparent, collaborative and accountable in making important decisions that affect the institution with input from faculty, students and staff

Budget process:

- Campus and system leaders will develop plans to address the budget shortfalls. Budget cuts will not be across the board.
- Identify programs to be protected with supporting documentation that indicate excellence

or are critical to the success of the University.

- Identify programs the University can no longer afford to support.
- Identify new programs or investments that can grow revenue as well as improve the University's performance measures or provide savings that can be reinvested in the academic mission.
- Develop short-term plans to be included in the FY2018 budget.

FY2018 Budget Plan Highlights

Revenue reductions from cuts in state appropriations and reductions in net tuition and fee revenue resulting from lower enrollment and changes in student mix resulted in budget shortfalls in the operations fund budget of \$47 million dollars. Unavoidable cost increases such as necessary maintenance and repairs, increased costs of risk, insurance, utilities, library acquisitions, and information technology added an additional \$15 million to the budget targets. In addition, the campuses identified \$39 million dollars in strategic investments to be made as part of the FY2018 budget process.

Savings from administrative restructuring, consolidation and elimination at the UM System will be invested to support campus success in three ways.

1. **Student Access, Success and Outcomes.** Investments will be made in enrollment management, open educational resources, retention and graduation performance, common distance learning portal, and dual credit and dual enrollment expansion.
2. **Research and Creative Works** - Investments in facilities and equipment.
3. **Strategic Marketing and Communication**

As part of the budget process, separations of 474 administration, faculty, and staff positions were identified. About half of these positions were occupied. The separations will occur from a combination of layoffs, retirements, and attrition.

Strategic investments, including strategic faculty hires of 212 faculty, are planned on the campuses.

FY2018 Budget Assumptions for Planning

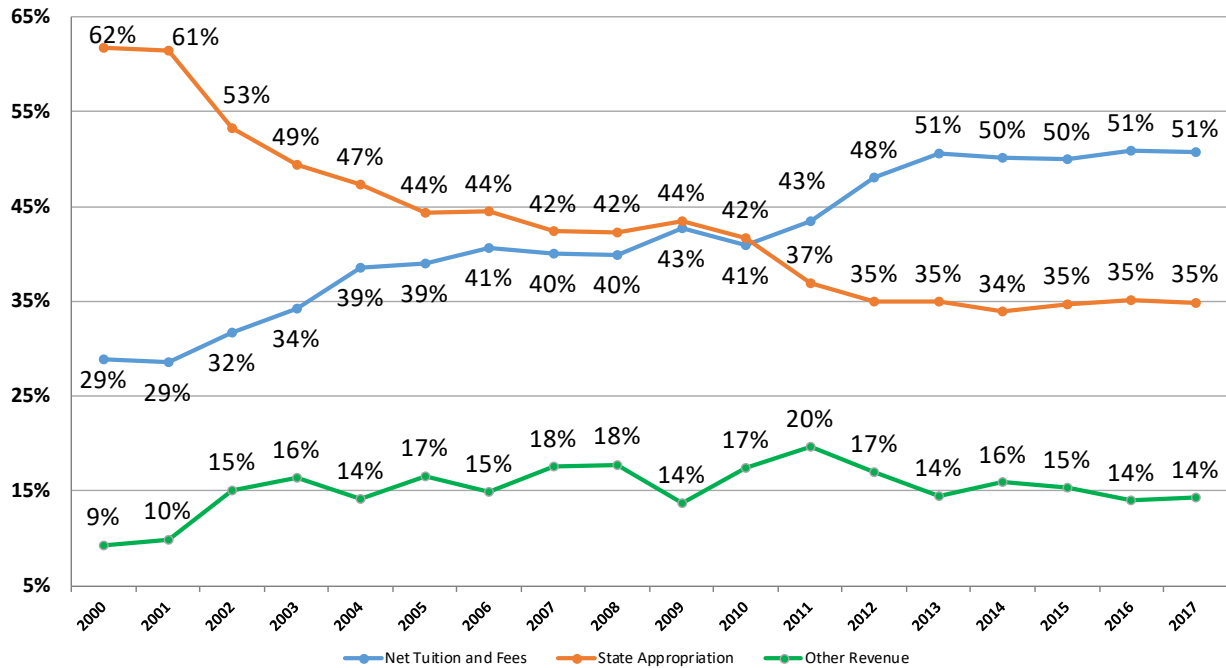

- State appropriations for the University of Missouri are subject to a 3.0% withholding by the State of Missouri. The University's budget was developed and entered into the University's financial system based on the assumption that state appropriation revenues would equal 97.0% of state funds appropriated to the University. Revenue reductions from cuts in state appropriations resulted in budget shortfall in the operations fund budget of \$35.6 million dollars. The Original Budget reflects the TAFP amount, which does not include the June extraordinary withholding put in place by the Governor.
- Tuition and fee budgets are based on the tuition and fee rates as approved by the Board of Curators in May 2017. Changes in enrollments, student mix, and institutional aid are determined by the individual campuses. In general enrollments are planned to decrease from FY2017.

- The following salary and wages guidelines were used by the campuses for FY2018 budget planning:
 - Each campus will recommend for Board approval a salary and wage budget consistent with campus needs.*
 - The flat benefit rate assessment remained unchanged at 27.72% of eligible salaries plus applicable FICA charges.
 - Other increases in compensation expenditures are driven by strategic investment by the campuses in order to achieve their strategic plans while decreases are driven by campuses needs to balance their budgets by freezing and eliminating positions.
- Other Operating Expenditures budgets reflect cost adjustments related to insurance, utilities, computing, compliance, maintenance and repair, inflation and other costs of doing business that must be funded.
- The budget reflects actions taken by the campuses to balance their budget and reallocate resources to fund their strategic priorities.

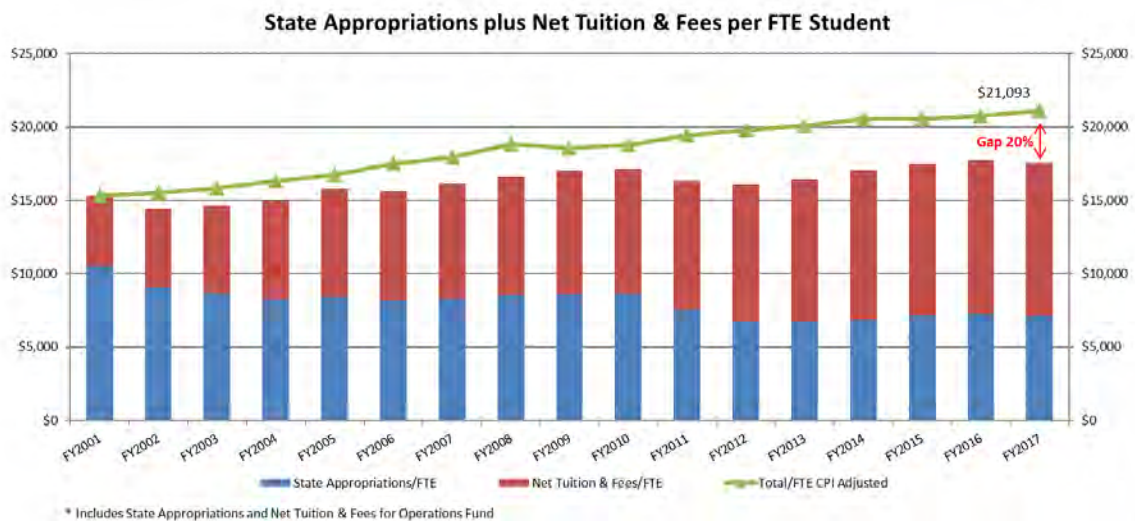

The budgets reported in this document are based on the original detail budgets for the University as entered into the Hyperion Budget system for the fiscal year.

Funding Our University

The two primary sources of funding for the University of Missouri are net tuition and fees and state appropriations. These two funding sources historically account for over 85% of revenue for operations. In recent years there has been a shift away from state appropriations to net tuition and fees as the primary funding source. This is a nationwide shift and is not anticipated to change. As illustrated by the chart below, state appropriations' share of revenue has declined from 62% in FY2001 to 35% in FY2017. This is a result of a decline in state appropriations, increases in enrollment, and increases in tuition and fee rates.

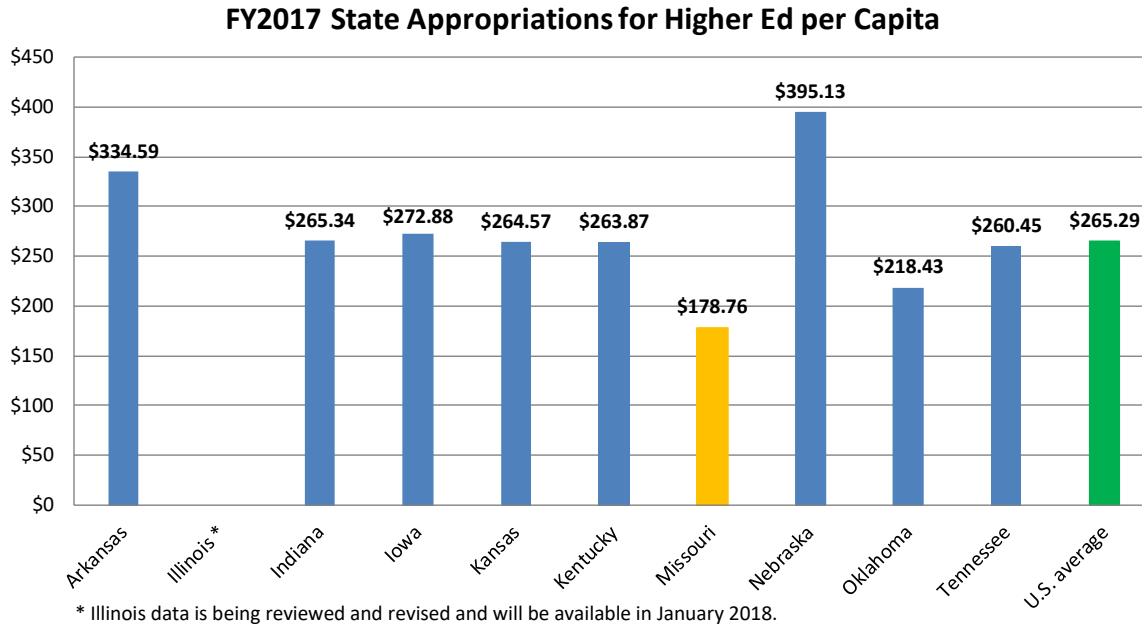

The chart below shows funding per FTE student and the shift in funding from state appropriations, shown in blue to net tuition and fees shown in red.

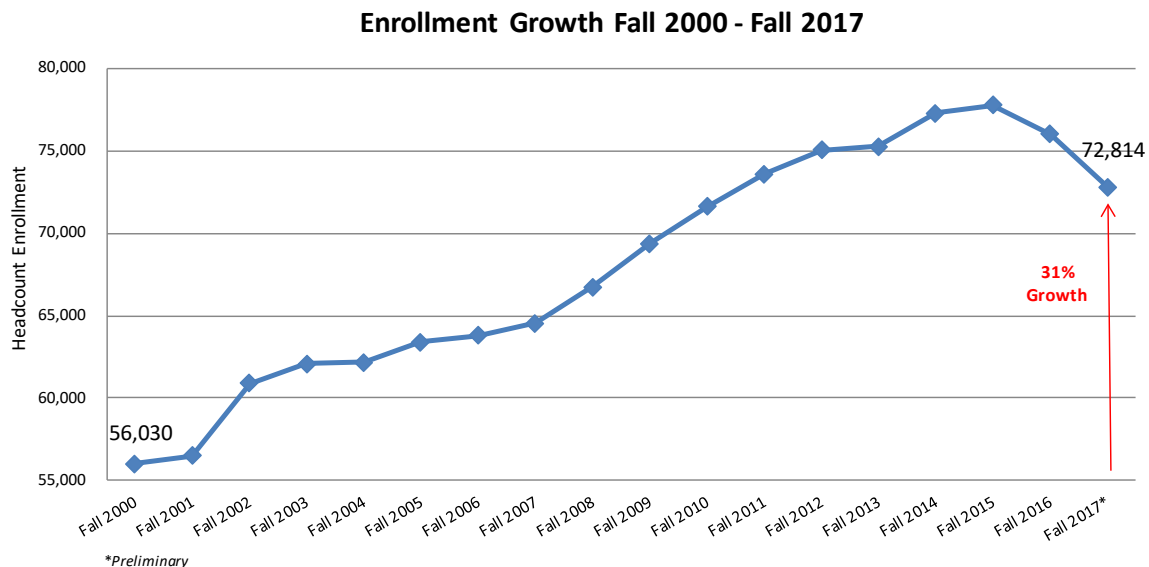

In real terms, the University of Missouri is spending about \$3,553 less to educate students than it did in FY2001, or a 20% decline in revenues per student as shown by the green line.

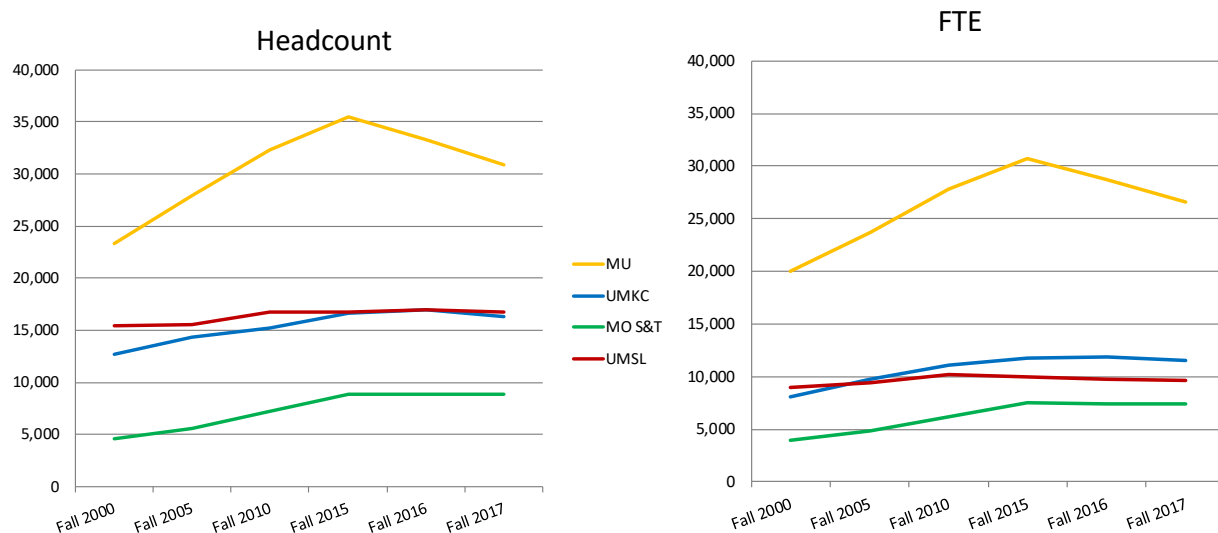

Missouri's support for higher education on a per capita basis is less than comparator states as illustrated by the following chart which shows the per capita state spending on higher education in our neighboring states. Missouri's per capita investment of \$179 is less than half of Nebraska and significantly less than our neighbors and the national average of \$256. Currently Missouri ranks 43rd in per capital funding for higher education.

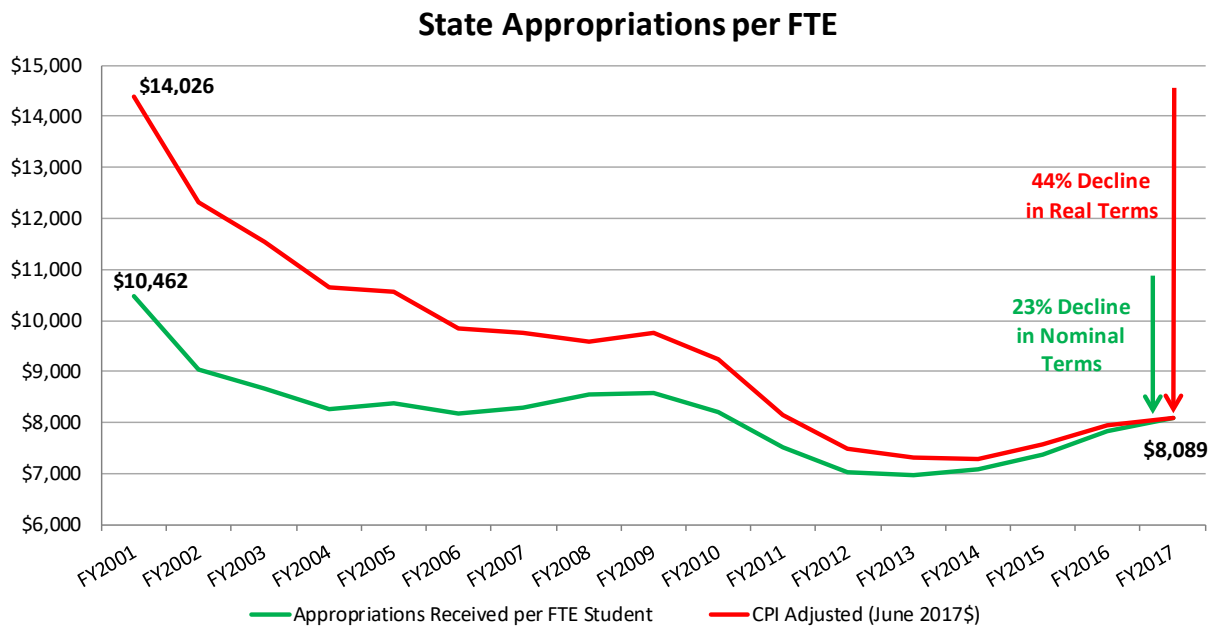

Making matters worse, as state appropriations began to decline and stagnate, the University of Missouri experienced a large growth in enrollment, of close to 17,000 students. Enrollment number peaked in Fall 2015 and it has been declining in recent two years.

The growth in enrollment did not occur equally across the campuses as illustrated by the charts below. The majority of the growth occurred at MU, Missouri S&T, and UMKC. In addition, the enrollment growth also occurred in the higher cost STEM and health care areas across the four campuses. Enrollment in recent two years has been flat or declining across the campuses.

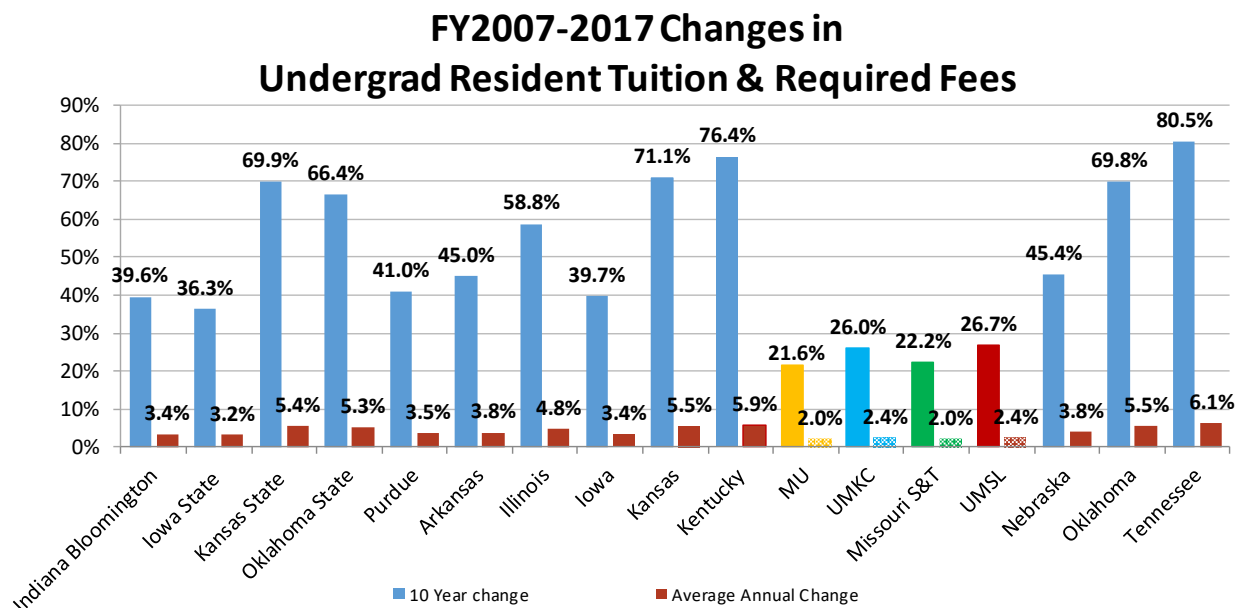

The combination of declining state support and rapidly increasing enrollments resulted in significantly reduced state support per FTE student.

* Includes State Appropriations for University Fund

Unlike others in the region UM System campuses have limited tuition increases over the last decade. This is due in part to the passage of the Higher Education Student Funding Act (HEFSA) in FY2008, also known as SB389, which effectively limits the growth in tuition and required fees for resident undergraduate students to the CPI.

Since FY2014 all new state support has come as performance funding or line item appropriations for specific programs. Performance funding was begun by the Governor and formalized by the legislature in FY2015 in SB492. Each institution has five performance funding measures approved by the Missouri Department of Higher Education which rely on existing, externally validated data. Success is measured in two ways, either by improvement from one year to the next or by being at or above “sustained excellence”. The University of Missouri System is one institution for performance funding and sustained excellence is defined as the top 1/3 of all US public doctoral institutions. This means that the University of Missouri System is compared to the top one third of institutions for performance outcomes while we are funded in the bottom fifth.

The University of Missouri System’s performance funding measures are:

1. Freshmen to sophomore retention rate for **student success and progress**
2. Six-year cohort graduation rate for **increased degree attainment**
3. Performance on professional/occupational licensure exams for **quality of student learning**
4. Percent of total education and general expenditures expended on the core mission (instruction, research, and public service) for **financial responsibility and efficiency**
5. Business sponsored research and development expenditures for our **mission specific measure**.

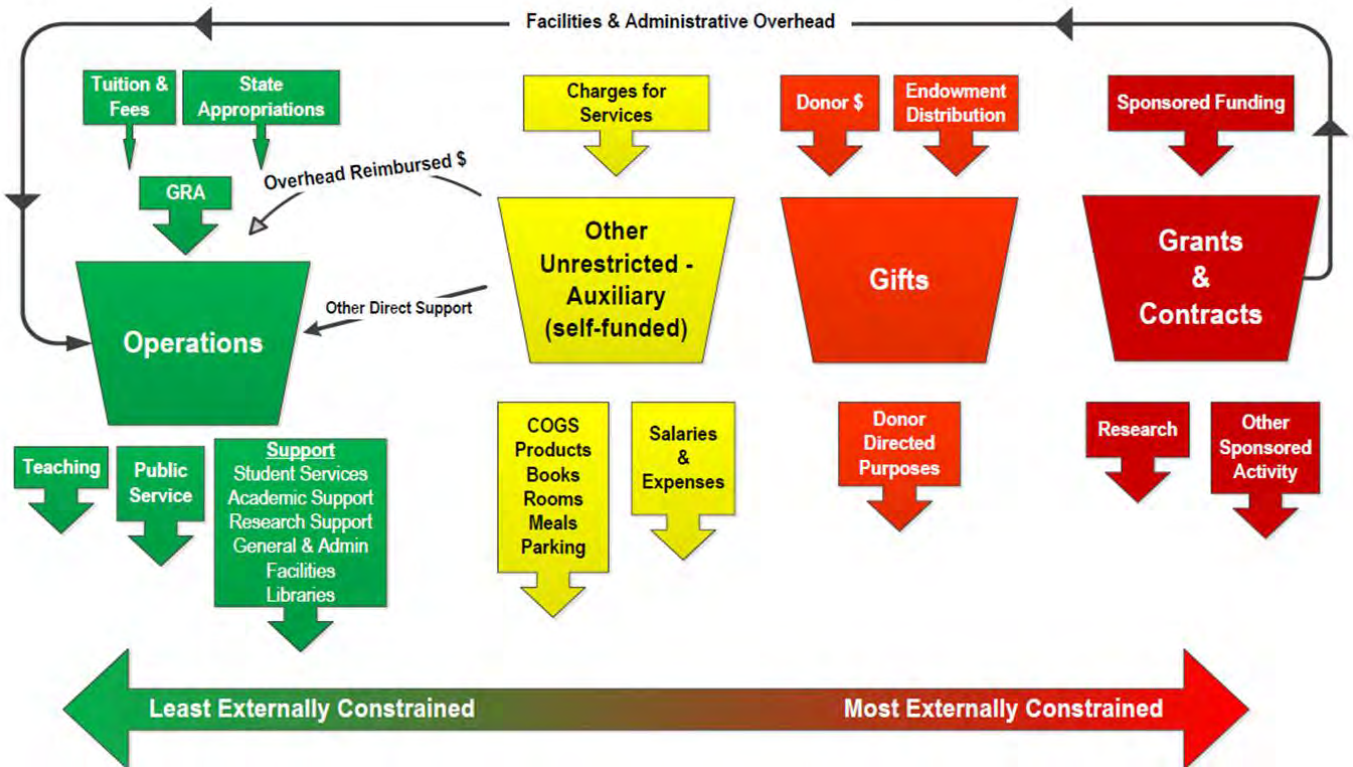

A new 6th measure will be added in FY2019 related to graduate outcomes. The University of Missouri System has been successful in meeting all of its performance funding measures since their inception.

The University of Missouri System will continue to face budget challenges, with one of the key challenges being **limited revenue growth**. The Higher Education Student Funding Act creates tuition and fee growth constraints. State revenue growth is anticipated to be limited with increasing demands from social services putting higher education appropriations support in jeopardy. Without increased state support, the University will not be able to grow enrollments and may have difficulty sustaining current enrollment levels without additional revenue.

On the expenditure side, **competitive salaries** and **increasing benefit costs** are serious issues that must be addressed. In addition, **facilities reinvestment** has taken a “back seat” over the past two decades and this **cannot** continue. Deferred maintenance and repair backlogs of \$1.8 billion require action plans that include increased funding, as well as better space management and utilization.

The Color of Money

Within the University setting it is important to understand that all money is not created equal. The chart below illustrates this concept for current funds using a basic stoplight analogy.

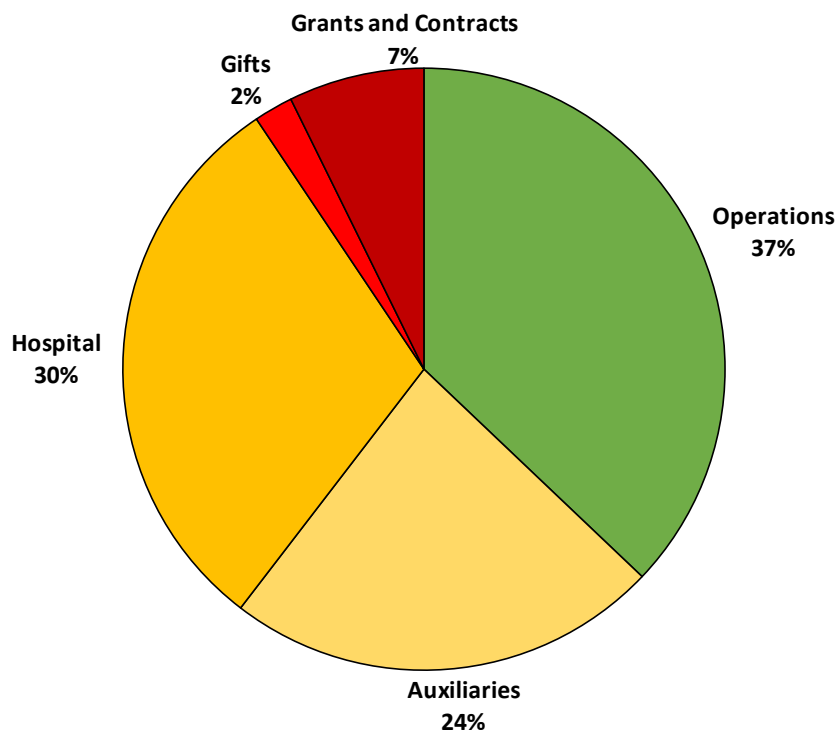

The concept is that a green dollar, or a dollar in the operations fund, is more valuable than a dollar received from a sponsored research award. The less externally constrained a dollar is, the more valuable it becomes. The operations fund dollars are the least externally constrained funds that the University has. They are represented on the chart as green dollars and can be spent for anything that is legal and ethical. The primary source of these funds are state appropriations and net tuition and fees. These “green” dollars are used to support teaching and public service, and to provide student services, academic support, research support, and general administration and facilities support. They are used to pay salaries, pay electric bills, repair a piece of equipment, maintain buildings, run information systems, and support human resources.

Auxiliary enterprises and other unrestricted activities are shown on this chart in yellow. Their revenue is less valuable to the University because while still unrestricted by external forces, it is more constrained than operating fund dollars. The resources they receive are generated from the services they provide. These self supporting businesses should generate enough money from their operations to pay the full cost of providing services including the repair and maintenance and future replacement of any facilities and equipment they utilize. In addition, these self supporting operations should pay the operating fund overhead for services provided to them. Some also provide direct support to the operating fund. The University’s largest auxiliary is MU Health Care.

Other auxiliaries include intercollegiate athletics, student housing and dining, university bookstores, and student recreation centers.

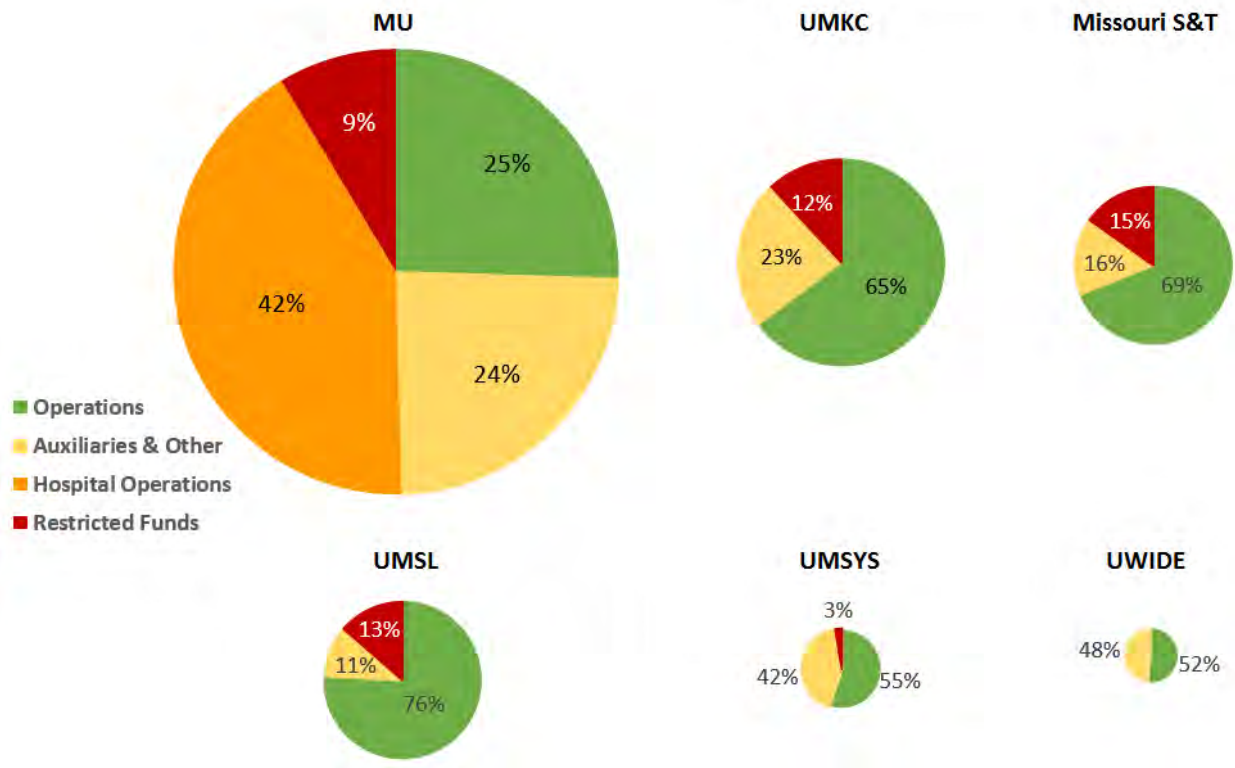

Resources that are restricted in use by external donors or sponsoring agencies are the most externally constrained resources of the University. These funds, which are shown in red on the chart, can only be expended as prescribed by the donor and for nothing else the University might need. Restricted grants and contracts, shown in dark red are the most constrained as not only must they be spent in accordance with rules by the sponsoring agency but there are also specific outcomes required in exchange for the funding.

The chart below shows the FY2018 University of Missouri System current funds budget by fund type. Operations, the most valuable dollars because they are the most flexible, make up 37% of the total current funds budget. Other unrestricted operations such as auxiliaries and hospitals combine to make up 54% of the current funds budget (shown in yellow), while the red restricted dollars from gifts, endowment distributions and grants and contracts only fund 9% of the budget.

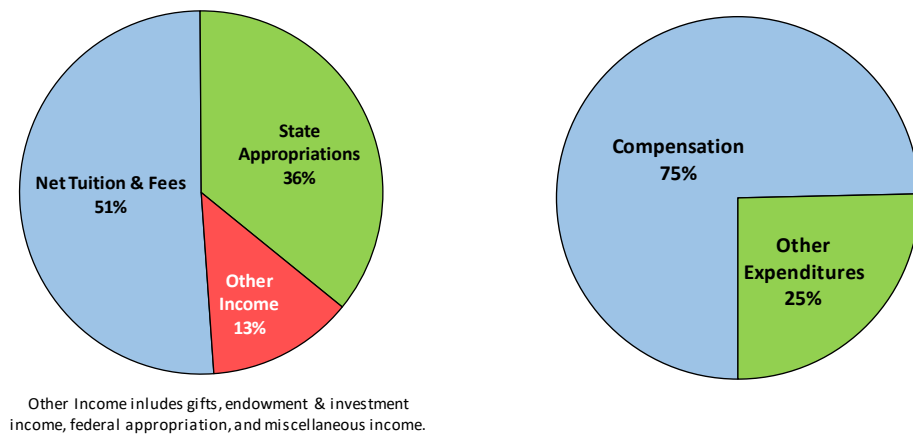

The following chart illustrates the distribution of the current funds budget by fund type and color of money for each campus and UM unit. The size of the pie charts are proportional to the campuses current fund budgets. The operations fund varies greatly as a percentage of the total current fund budgets of the campuses. At MU the operations fund is only 28% of the total while the hospital, auxiliaries and other unrestricted enterprises combine for 64%. The operations fund at UMSL is 81% of their total current funds budget, with the other campuses and system units somewhere in between.

FY2018 University of Missouri Campus/Unit Current Fund Budgets by Fund Type

The charts below provide additional insights into the University of Missouri System's \$1.2 billion operations fund budget for FY2018. Net tuition and fees and state appropriations combine to contribute 87% of the operations fund budget and compensation of faculty and staff makes up 75% of the budgeted expenditures for FY2018.

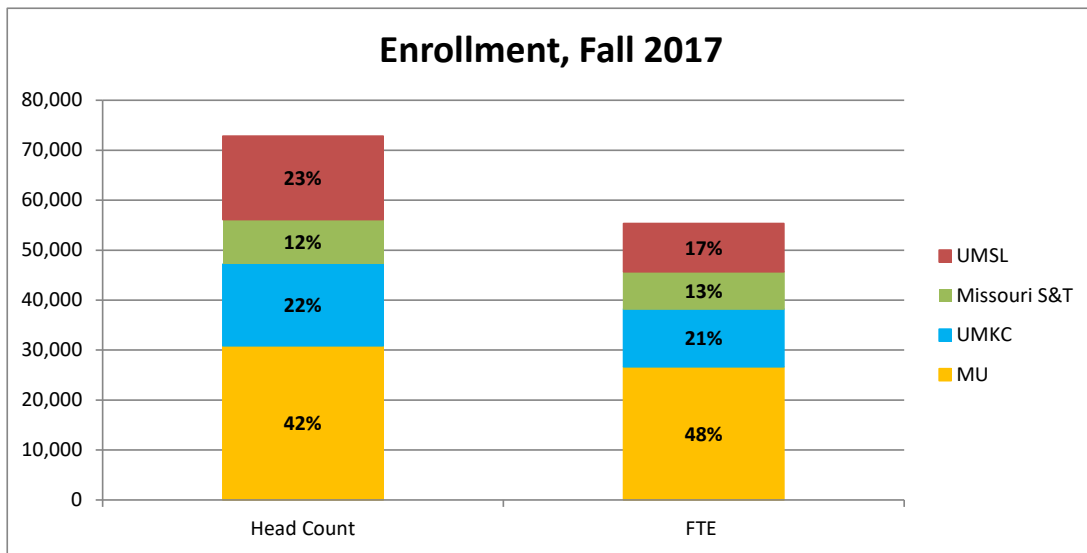

UNIVERSITY OF MISSOURI SYSTEM

Statistical Highlights

Enrollment, Fall 2017(Preliminary)	<u>Head Count</u>	<u>FTE</u>
MU	30,844	26,637
UMKC	16,372	11,580
Missouri S&T	8,883	7,450
UMSL	16,715	9,684
Total Enrollment	72,814	55,351

(77 percent undergraduate, 23 percent graduate and first professional students)

Degrees and Certificates Awarded, FY2017

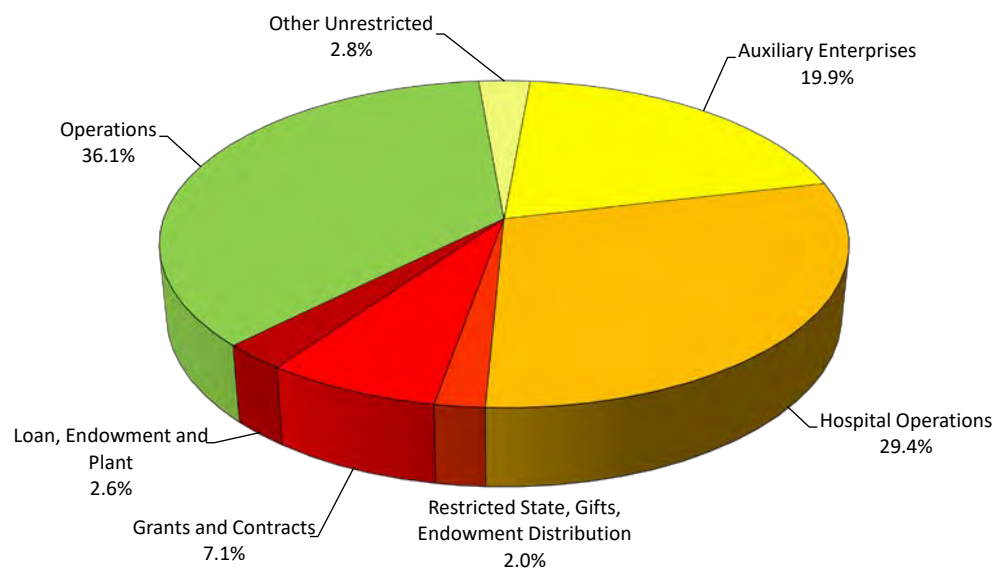

Undergraduate Certificate	56
Bachelor's	11,546
Graduate Certificate	869
Master's	4,217
Educational Specialist	93
Doctor's-research/scholarship	816
Doctor's-professional practice	829
Total Degrees and Certificates	18,426

Faculty and Staff Headcount, Fall 2016

Total Faculty	5,900
<i>(66 percent full-time, 34 percent part-time)</i>	
Total Staff	17,953
<i>(77 percent full-time, 23 percent part-time)</i>	
Total faculty and staff	23,853

UNIVERSITY OF MISSOURI SYSTEM
Fiscal Year 2018 All Funds Revenues Budget Summary

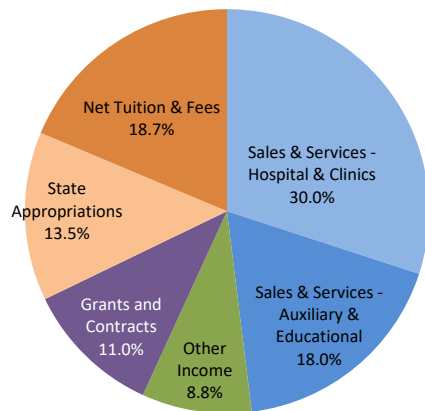

Fund	Definition	Amount
Operations	The Operations fund is where the majority of the University's instructional and public service activities are budgeted and accounted for. It is funded primarily by tuition and fees and state appropriations for operations.	1,155,722,604
Other Unrestricted	Other Unrestricted funds are comprised of Service Operations, Continuing Education, and Self Insurance Funds. <u>Service Operations</u> provide services to departments or other organizational units within the University. <u>Continuing Education</u> extends the campus course offerings outside of the normal time, space, and campus location. <u>Self Insurance Funds</u> include medical benefits, dental benefits, educators' legal liability, medical malpractice, auto and general liability, long-term liability, and worker's compensation.	89,417,095
Auxiliary Enterprises	Auxiliary Enterprises are self-supporting activities that provide services primarily to students, faculty, staff, and patients.	637,085,246
Hospital Operations	The Hospital Operations fund is primarily composed of the combined clinical operations of MU Hospitals & Clinics, Ellis Fischel Cancer Center, Missouri Orthopaedic Institute, Missouri Psychiatric Center, and Women's and Children's Hospital.	940,447,483
Restricted State, Gifts, Endowment Distribution	These are funds restricted by third parties. They are comprised primarily of gifts, endowment distributions, and restricted state appropriations.	65,503,382
Grants and Contracts	Grants and Contracts are comprised of restricted funds including federal grants, Pell grants, state grants, and other grants and contracts.	227,002,168
Total Current Funds		3,115,177,978
Loan, Endowment and Plant	<u>Loan funds</u> are used to record activity on funds available for loans to students. <u>Endowment and similar funds</u> include all gifts, bequests, and other funds directed to be used to support a University program in perpetuity. Ninety percent of the endowment fund is restricted for use by donors and most of the remaining ten percent has been designated by the Board or administration for special use. The <u>plant fund group</u> is used to record acquisition and replacement of assets, to pay off debt, and to record the net investment in assets (equity) from both current expenditures and reserves for renewal and replacement.	83,803,872
Total University Funds		3,198,981,850
