Notes:

(1) Unrestricted Educational and General Current Funds were estimated by subtracting Auxiliaries Revenues (only Sales and Services), Hospital and Clinics Revenues, and Independent Operations Revenues as reported in the IPEDS Finance Surveys and on the NCES Web Database from Total Current Funds Revenues.

(2) UMC's percentages are very different relative to the other UM campuses due to the inclusion of University Physicians, which comprised about 1/3 of the designated revenues for FY1997.
